

Three Letter coin

INTRODUCTION

Three Coin is a commemorative honor coin created for Army veterans.

It represents service, sacrifice, discipline, and lifelong brotherhood.

Rooted in structure and unity, the coin reflects the enduring bond shared by those who have served — across deployments, across borders, and across generations.

This is not a decorative token.
It is a mark of earned legacy.

THE IDEA BEHIND THE COIN

The visual language draws inspiration from traditional honor coins, ceremonial seals, and service emblems — refined into a modern symbol of unity and strength.

Core Symbolism

Triangle

The triangle represents stability, resilience, and structural strength. It reflects three enduring pillars of service:

- DEFEND
- PROTECT
- INFORM

The three equal sides symbolize balance between duty, courage, and responsibility.

LOGO SYSTEM & LOCKUPS

Three Coin stands for lifelong vigilance — a symbol for those who served with discipline, upheld their oath, and carried responsibility beyond themselves.

Strength through duty.
Honor through sacrifice.
Brotherhood through shared service.
